

Manual

Datasets can be placed in the datasets directory

To add a project to the classifier, edit or replace completely line 76 with name of new dataset

E.g. For adding new project named

```
projects = ['pytorch', 'tensorflow', 'keras', 'incubator-mxnet', 'caffe', '(Example)']
```

becomes

```
projects = ['pytorch', 'tensorflow', 'keras', 'incubator-mxnet', 'caffe', '(Example)']
```

or

```
projects=['(Example)']
```

To use the SBERT+SVM classifier run:

```
python sbert_svm.py
```
